

Epstein Tester S21 and S21R Series

- State of Art, **Indigenous Equipment** for testing of Electrical Steel Laminations.
- Wide Material Type Testing—**CRGO, CRNO, Nano Crystalline, Amorphous** etc.
- **ASTM/ IEC /IS** Standard Compliance.
- Wide Frequency Range of Testing—**DC to 1000Hz**.
- Measurement Accuracy—**1%**.
- Acceptable Sample Thickness as Low as **0.1mm**.
- **BH Loop Graphical Display**.
- Calibration Traceable to **NABL** Accredited Lab.
- Variety of Magnetic Properties Tested.
- **No Hidden Cost**.

- **Fully Computerized** System, Very Low Measurement Time, Data **Automatically** Generated and Saved.
- **No Operator Skill Required**, Easy Installation and Operation.
- All Accessories Supplied for **Smooth Running**.
- **Detailed Test Reports** for Design Applications.
- **Summery Test Reports** for Customer Submission.

FERRITES INDIA

Products We Manufacture:

BH Loop Tracer Based:
Epstein Frame Tester
Core Loss Testers
Laminated Toroidal Core Tester
Solid Rod and Solid Toroidal Core Tester
Single Sheet Tester

Rotor Testers

Magnetizers
Demagnetizers

Custom Made Special Purpose Systems

Digital Gaussmeters
Digital Fluxmeters
Flux Coils
Helmholtz Coils
Rogowski Coils
Hall Probes
Pole Detectors

Reference Magnets
Zero Field Cavity
