Pole Detector

The cost of Pole detector are as below.

Sr. No.	Name	Price		
		For 1	For 5 +	For 10 +
1	PD-900	2700	2100	1600

Working

1. The unit works on two 1.5V, AA size batteries. The batteries can be inserted in the compartment at one end of the unit.
2. Two LED indicators are provided. Please refer to the following table for pole detection.

Sr. No.	Name	Sensitivity	N – Pole	S – Pole
1	PD-900	>= 30 Gs	Red LED	Green LED

3. To check the polarity of the magnet, touch the end of the probe to the surface of the magnet and press the ON button. One of the LED will glow depending up on the pole detected.
